

# Weekly Report

Haidong CHEN

August 4, 2013

## 1 Project

Update the hybrid visualization patents...

## 2 Research

This week, I was mainly working on implementation of the linked-view based interface of our system, see Figure 1. The visual representation of ensemble data item was also updated.

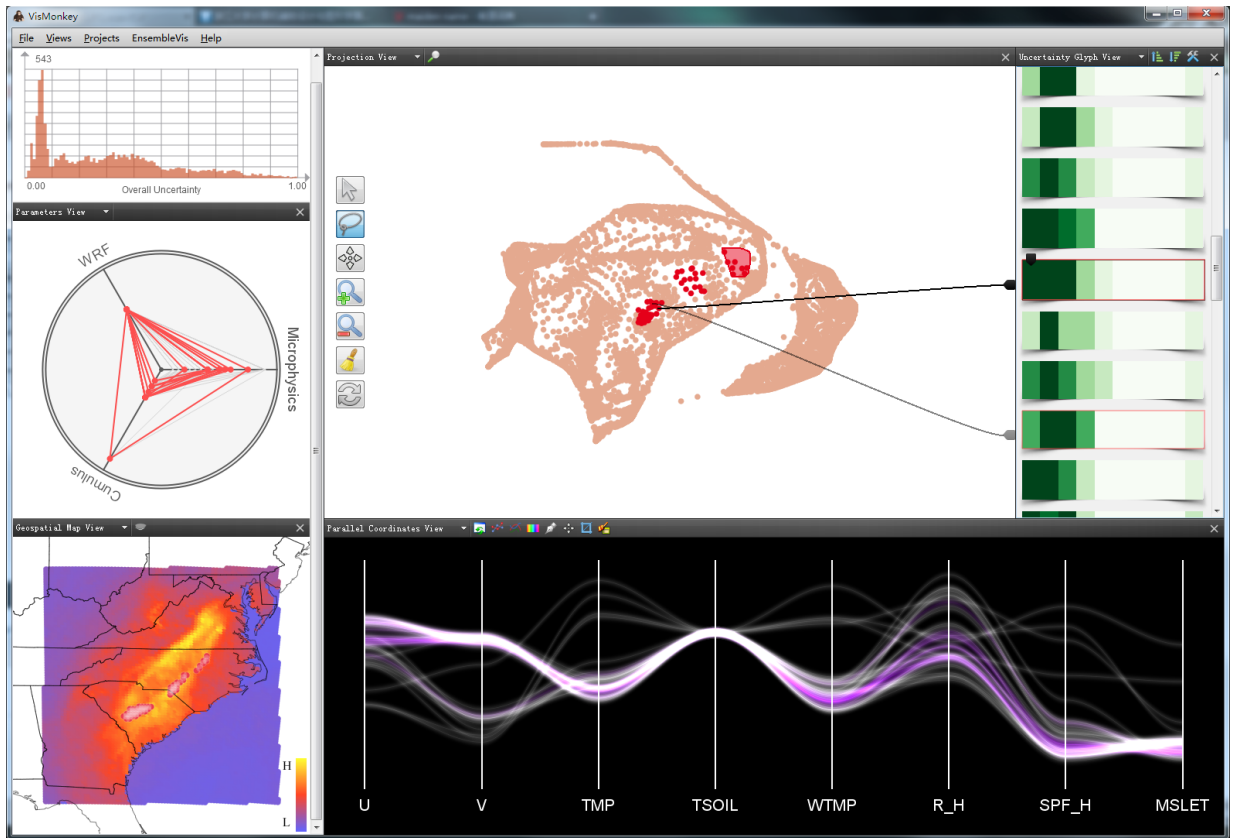

Figure 1: The updated linked interface of our system.

### **3 Work to do in next week**

- Revise the text part of our paper
- Organize the GPS dataset for test our uncertainty-aware ensemble dataset exploration framework
